

**CONCEPTUALIZE & BUILD YOUR
DREAM KITCHEN WITH US**

THE HEART OF HOME

“The kitchen is the place where we spend most of our time and where the lifetime memories are created. From a small cup of coffee or tea to a large festival meal for the whole family and friends, everything is starting off in the kitchen and it brings your loved ones together. It is the place where the new and old recipes are invented and discussed.”

Basically, the kitchen is the heart of our home and it highly deserves to be designed with love, attention and perfection.”

BENEFITS

A well thought of and designed Modular Kitchen, not only enhances the charm of home, but also offers several other benefits that make modular kitchen the most preferred option over traditional kitchens.

-  Elegant Appearance
-  Efficient Storage
-  Easy Maintenance & Cleaning
-  Cooking Convenience
-  Systematic Appliances Placement

■ WE MAKE IT UNIQUE FOR YOU

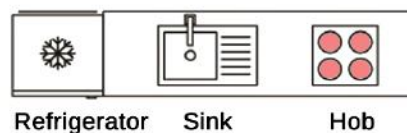

“We bring together the design, technology, professionals, best material to offer you flawless finish and better space management.

Our design team will bring the best for you. They ensure the intelligent design in all shapes & size of the kitchen to meet all your requirements.”

COMPONENTS

There are various modules, different items and products used in modular kitchen. Simplified broad categories of components are given below.

- Carcass
- Shutters
- Hardware Mechanism
- Kitchen Accessories / Fittings
- Appliances
- Lighting

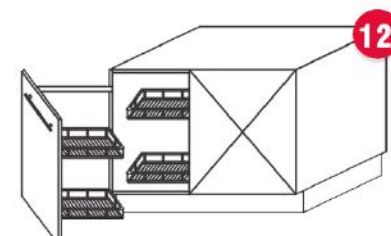

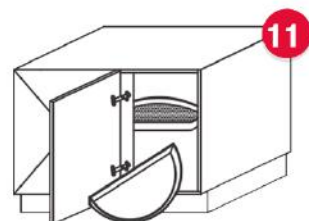

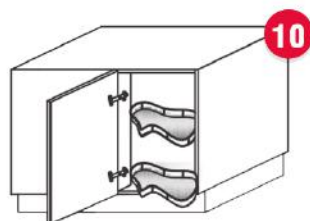

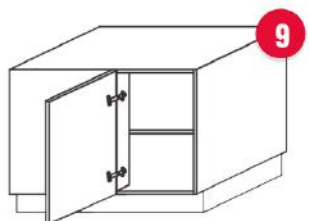

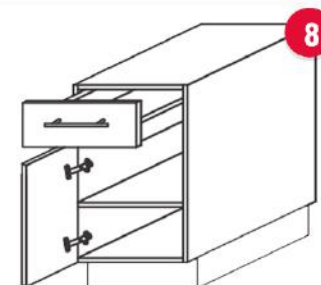

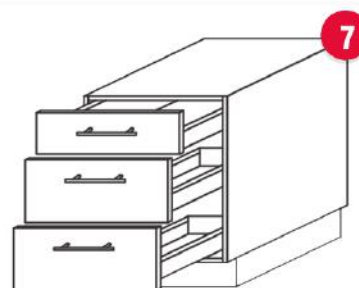

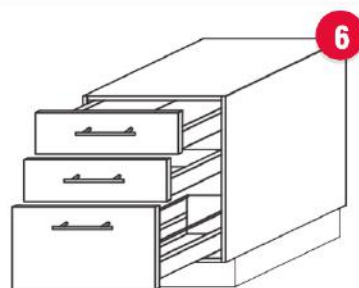

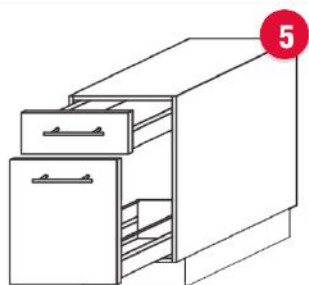

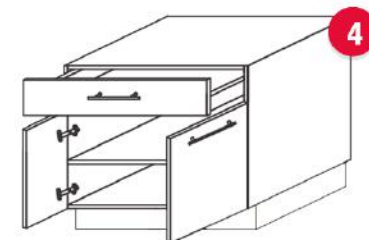

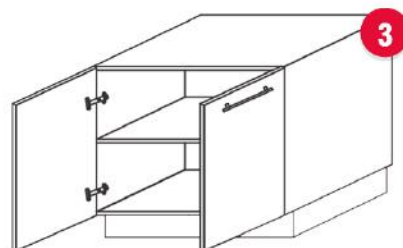

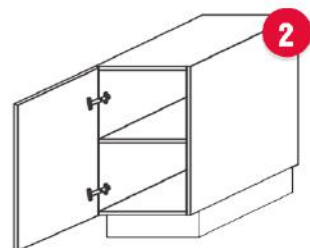

CARCASS

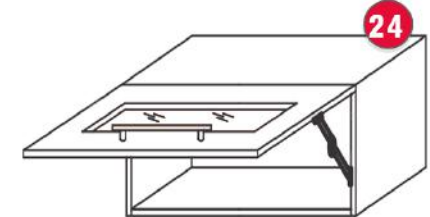

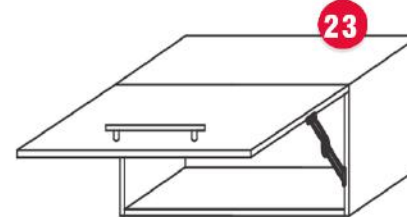

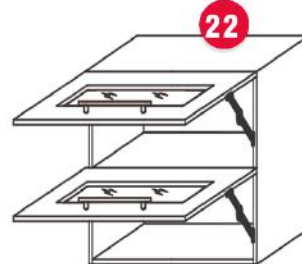

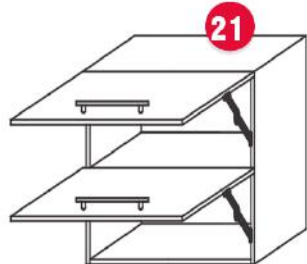

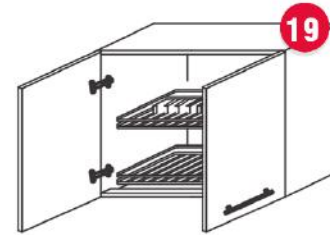

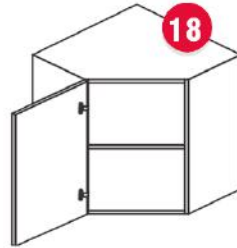

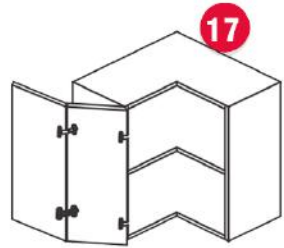

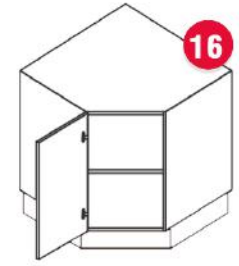

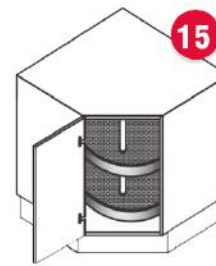

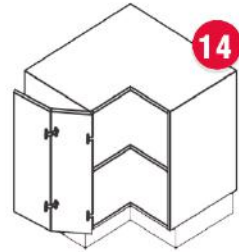

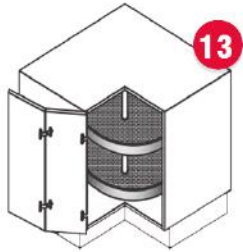

The base structure of Kitchen Cabinets or Cabinet module is known as Carcass. Carcasses are responsible for the durability of the Kitchen. Plywood, Commercial Board and Engineered Wood like BWR, HDF etc are the most common choices for the cabinet carcass material.
